GLAZED DONUT NAILS

For a trendy and... delicious look!

As bright as donut glaze! That was the inspiration for this simple but impressive nail art, which immediately became a trend thanks to the beautiful Hailey Bieber, wife of the well-known singer Justin, who showed it off on social media.

How can you realise it? With our **Metal Top Coat**, a real highlighter with metallic pearls that seal your nails for a very sweet 'glaze effect'! The application on neutral colours is currently very popular, but also on red you can have a great result.
